

Blue Mood

**I guess I've got to go out walking
I feel a blue mood coming on
Don't want to hear nobody talking
I just have to be alone**

**Everytime I hear the music
Takes me back to my old flame
I got a fine looking baby
You know she's gonna drive me insane**

Solo

**I got me a funny kind of feeling.
Feels like teardrops falling down inside
Guess I'll have to keep on smiling
So the folks will think I'm satisfied**
