

Change It Stevie Ray Vaughn

You can't change it
If time is all that we got

Can't re-arrange it
Then baby let's take it

Lovin' is a lovin'
It's worth all the years in the past

The moment is a-right
Let's go one more night

Get away from the blind side of life
Honey I want you to be by my side
Me and my back door moves ain't no more... No more

<repeat>

<solo>

Get away from the blind side of life
Honey I want you to be by my side
Me and my back door moves ain't no more... No more

Goodnight my darlin'
Forget all those painful memories

Another day has passed
Our love's gonna last

Come to me baby
It's time we got movin'
Let's slide out the door
Ride our way home

Come to me one more time
Time to move on
Let's slide out the door
Let's glide our way home

Let's go Let's go Let's go Let's go Let's go Let's go
I've come back for more

<solo>
